The Bodyguard Difference

Natural Ergonomics

Everything you need at your fingertips.

SafeGrip Handlebars

The SafeGrip handlebars are secure and comfortable for all user sizes.

Turbo Training Program

Replicate high acceleration interval workouts.

22" X 60" X-Frame

One-piece, fully welded frame minimizes torsion while increasing strength and stability.

18% Elevation Range

The T460XC's elevation ranges from -3% to 15% incline.

Bodyguard UNIQUE FEATURES

STANDARD FEATURES (standard on all models)

JustGo
As the name suggests, simply push a button and start your workout.

Silicone Keys
The most responsive and durable keys in the industry.

CHR Digital Contact Heart Rate Sensor
Faster and more accurate contact heart rate readouts.

AFDS Advanced Friction Detection System
Protects the electronic board and the treadmill motor from overheating or physical damage.

4-Way Deck
A longer lasting running deck — simply flip and rotate as required.

iTek Diagnostic System
An integrated software program that continuously monitors equipment performance.

BDS Bodyguard Dissipation System
The finest shock absorption material on the market.

ESC Natural Motion System
Gives you the closest feeling to true outdoor running.

Palladium Lower Control Board
Superior quality lower control board allows more rapid and accurate communications.

BODYGUARD PREMIUM FEATURES (available on select models, see grid)

HRC Heart Rate Control Programs
Customize your heart rate control program speed, incline, or both!

X-Frame
Provides increased stability by minimizing frame torsion.
